

Anders Berg, born in 1972, brings with him a solid industrial and international background. Most recently Mr Berg served as CEO and President of Lindab International AB (publ).

Prior to this Mr Berg held the position as Vice President Operations at SSAB with placement in Shanghai, China. Berg with a M.Sc. in Industrial Engineering also have a number of years of experience from various positions within the SSAB Group, notably Managing Director for the subsidiary Plannja.

Mr Berg also have experience from start-up environments where he participated in the start-up and development of Symbrio (a company offering products and services that aim to optimise customers' purchasing and invoice management processes) during a number of years prior to working for SSAB and Plannja. Mr Berg also have experience from serving on the board for a number of companies.

Mr Berg as lived and worked in China, Malaysia, Australia, USA and Sweden and started his career as Executive Trainee at ABB holding a degree in Master of Science in Industrial Engineering and Management.

"I am excited to join the board in the capacity of Chairman and to carry on the work from Mr Felldin when he has now chosen to step down. Runway Safe have a strong value proposition and a number of successful installations across the globe, and I look forward to further help develop the business by contributing with my experience from international business as well as insights into how to grow and develop organizations and sustainable processes."
